

Testimony for the Committee on Energy and Technology

In Support of
**H.B. No. 7156 AN ACT CONCERNING THE PROCUREMENT OF ENERGY DERIVED
FROM OFFSHORE WIND**

and In Support of
**S.B. No. 875 AN ACT EXPANDING CONNECTICUT'S OFFSHORE WIND ENERGY
PORTFOLIO**

Submitted by **Mr. David R. Robinson, P.E.**
February 26, 2019

Dear Co-Chairs Needleman and Arconti, and Members of the Committee:

Thank you for this opportunity to submit testimony in support of H.B. No. 7156, An Act Concerning the Procurement Of Energy Derived From Offshore Wind and S.B. No. 875 An Act Expanding Connecticut's Offshore Wind Energy Portfolio.

- I worked for Ocean and Coastal Consultants and COWI from 2001 to 2010. We were involved with many aspects of Wind Energy during that period. COW has offices in Connecticut In Trumbull.
- In 2018, the General Assembly approved landmark climate and energy bills setting more aggressive targets for both greenhouse gas emissions reduction (45% below 2001 levels by 2030) and renewable energy (40% by 2030). Both bills passed by large bipartisan majorities.
- Governor Lamont has called for an even more aggressive timetable that envisions Connecticut becoming carbon neutral and securing 100% of its power from renewable sources by 2050. Offshore wind will play an essential role in making that vision a reality.
- I support the Committee's call for up to 2000 MW of offshore wind, but the bill should be amended to make that a mandate requiring DEEP to procure 2000 MW by 2030. MA and NY have solid commitments like that, and if we don't send a strong message to the industry that Connecticut wants to be a regional hub for offshore wind staging and supply chain activities then those jobs will go elsewhere.
- I support both bills' labor provisions that will ensure the jobs created by these investments are high-quality jobs with health and safety protections.

Thank you for this opportunity to submit testimony on these bills.

Mr. David R. Robinson, PO Box 909, East Lyme, CT 06333
